Dylan A. Smalls

Covington, GA | dsmalls30@gatech.edu | U.S. Citizen

Objective

Computer Engineering student at Georgia Institute of Technology seeking a Software Development or Computer/Systems Engineering internship, available Summer 2027. Experience in Python, test-driven development, and system design; IBM-certified in AI, Data Science, and Cybersecurity, with undergraduate research experience building and troubleshooting software systems.

Education

Georgia Institute of Technology | Atlanta, GA *August 2026 – Present*
Bachelor of Science in Computer Engineering Expected Graduation: May 2028
Clark Atlanta University | Atlanta, GA *August 2023 – May 2026*
Bachelor of Science in Computer Science (Dual Degree Program), GPA 3.693

Skills

Programming: Java, Python, JavaScript, SQL, Node.js
Hardware: 3D Printer, Filament Extruder
Software: GitHub
Professional Organizations: National Society for Black Engineers (NSBE)
Communication: Design proposals, technical reports, presentations (small audiences)
Languages: English (native), Japanese (beginner)

Experience

Clark Atlanta University Undergraduate Research | Atlanta, GA *June 2025 – August 2025*
Undergraduate Researcher
University-sponsored research initiative supporting faculty-led software systems development.

- Built and debugged a software prototype simulation alongside faculty and peers, resolving key defects to deliver a fully functional working demo.

Google Scholar Program | Atlanta, GA *June 2024 – July 2024*
Residential Counselor
An enrichment program giving incoming CAU freshmen hands-on exposure to STEM fields and campus life.

- Mentored 40 incoming freshmen through a three-week residential program with a 100% completion rate.

Projects

DOGUI.ai | Clark Atlanta University's ViSiDEL (Visual, Simulation, and Design Lab) Research Team *January 2025 – May 2025*
Backend Developer + Cloud Engineer
Team-based capstone project: a watsonx GenAI website guiding engineers through the AI-assisted Engineering Design Process.

- Engineered the speech-to-text/text-to-speech pipeline for DOGUI.ai using watsonx APIs, delivering a live demo to IBM and CAU leadership.

Relevant Coursework

Digital System Design: Combinational and sequential logic design
Intro to Object-Oriented Programming: Object-Oriented Programming principles, Java-based application design
Data Structures: Arrays, linked lists, trees, graphs; Big-O analysis; recursion and searching/sorting algorithms.
Software Engineering: Software development lifecycle; requirements analysis and design; testing methodologies and version control
Electric Circuit Analysis: DC/AC circuit analysis; Kirchhoff's laws; circuit simulation and lab-based measurement techniques

Leadership or Activities

NSBE (National Society of Black Engineers) | Member *August 2023 – Present*

- Engaged with AUC (Atlanta University Center) engineering students via workshops, networking events, and technical talks.

Clark Atlanta University Honor Program | Member *August 2023 – Present*

- Maintained rigorous academic standing in a selective honor cohort, reinforcing strong study habits and academic discipline.

CAU (Clark Atlanta University) Robotics Team | Member *August 2025 – May 2026*

- Collaborated with students with various majors to design, build, and troubleshoot robotics systems.
